## RATES AND CHARGES

The Origin Points on the Carrier's Pipeline are the following points of Receipt, all within the state of Texas:<sup>1</sup>

- On Carrier's Wolfcamp Connector Mainline: the Garden City Station, the interconnection of the Howard Lateral with the Wolfcamp Connector Mainline, and various Origin Points to attach Crude Petroleum, all within Glasscock County.
- On Carrier's Reagan Gathering Extension: the Reagan Station in Reagan County, and various Origin Points to attach Crude Petroleum in Glasscock County and Reagan County.
- On Carrier's Midkiff Lateral: the Midkiff Station in Upton County, the Garden City Station, and various Origin Points to attach Crude Petroleum in Glasscock County, Midland County, and Upton County and the interconnection of the Midkiff Lateral with the Santa Rita Lateral in Glasscock County.
- On Carrier's Santa Rita Lateral: the Santa Rita Station, the Hickman Station, and various Origin Points to attach Crude Petroleum, all within Reagan County.
- On Carrier's Howard Lateral: the interconnection of the Howard Lateral with the Wolfcamp Connector Mainline in Glasscock County, the Howard Station in Howard County, and various Origin Points to attach Crude Petroleum production in Glasscock County and Howard County.
- On Carrier's Crane Extension: the Midkiff Station, the Crane Hub in Crane County and various Origin Points to attach Crude Petroleum production in Upton County.
- On Carrier's Midland Lateral: the Garden City Station, the Midland Hub in Midland County and various Origin Points to attach Crude Petroleum production in Glasscock County, Midland County, and Upton County.
- On Carrier's Martin Lateral: the Martin Station and various Origin Points to attach Crude Petroleum production, all within Martin County.

The Destination Points on the Carrier's Pipeline are the following points of Delivery, all within the state of Texas:<sup>2</sup>

---

<sup>1</sup> Carrier is willing to provide additional Origin Points to attach Crude Petroleum production (including additional gathering pipelines) on the Wolfcamp Connector Mainline, the Reagan Gathering Extension, the Midkiff Lateral, the Santa Rita Lateral, the Howard Lateral, the Crane Extension, the Martin Lateral, and the Midland Lateral, where operationally practicable, at mutually agreed upon locations; provided, however, that the requesting Shipper(s) is able to satisfy the terms and conditions of Carrier's applicable RRC Tariffs and executes a long-term TSA or other agreement that, in Carrier's sole judgment, sufficiently provides for the Carrier's reimbursement of all costs associated with the construction and operation of such facilities (including income tax gross up). See Part III of this Rates Tariff. To the extent additional Origin Points are constructed and placed in service, Carrier will make appropriate tariff filings with the RRC.

- On Carrier's Wolfcamp Connector Mainline: the interconnection with the Colorado City Hub in Scurry County<sup>3</sup> and the interconnection of the Howard Lateral with the Wolfcamp Connector Mainline.
- On Carrier's Reagan Gathering Extension: the interconnection with Laredo Midstream Services, LLC in Reagan County and the Garden City Station, including, where applicable, to and through service to the Colorado City Hub.
- On Carrier's Midkiff Lateral: the Garden City Station and the Midkiff Station.
- On Carrier's Santa Rita Lateral: the Reagan Station and the interconnection of the Midkiff Lateral with the Santa Rita Lateral.
- On Carrier's Howard Lateral: the interconnection of the Howard Lateral with the Wolfcamp Connector Mainline and the Alon USA Big Spring Refinery in Howard County.
- On Carrier's Crane Extension: the Midkiff Station and the Crane Hub<sup>4</sup>.
- On Carrier's Midland Lateral: the Garden City Station and the Midland Hub.<sup>5</sup>
- On Carrier's Martin Lateral: the Midland Hub.

<sup>2</sup> Carrier is willing to consider additional Destination Points on the Wolfcamp Connector Mainline, the Santa Rita Lateral, the Howard Lateral, the Crane Extension, and the Midland Lateral to interconnect with other carriers where operationally practicable, at mutually agreed upon locations; provided, however, that Carrier reserves the right to file for and charge an incremental transportation fee to recover the costs associated with the construction and operation of the facilities necessary to provide such additional Destination Point(s). *See* Part III of this Rates Tariff. To the extent additional Destination Points and/or interconnections are constructed and placed in service, Carrier will make appropriate tariff filings with the RRC.

<sup>3</sup> The Colorado City Hub is limited to the interconnections in Scurry County with (i) BridgeTex Pipeline Company, LLC, and (ii) Sunoco Pipeline L.P., as more precisely described in the Connection Agreement between Carrier and Sunoco Pipeline L.P. Carrier is willing to consider additional Destination Points on the Wolfcamp Connector Mainline, including interconnections at the Colorado City Hub with other carriers, where operationally practicable, at mutually agreed upon terms and conditions; provided, however, that Carrier reserves the right to file for and charge an incremental transportation fee to recover the costs associated with the construction and operation of the facilities necessary to provide such additional interconnections. *See* Part III of this Rates Tariff. To the extent additional interconnections are constructed and placed in service, Carrier will make appropriate tariff filings with the RRC.

<sup>4</sup> The Crane Hub is currently limited to the interconnection with Magellan Pipeline Company, L.P. (commonly referred to as the Longhorn Pipeline). Carrier is willing to consider additional interconnections within the Crane Hub with other carriers and service providers, where operationally practicable, at mutually agreed upon terms and conditions; provided, however, that Carrier reserves the right to file for and charge an incremental fee for such additional interconnections. *See* Part III of this Rates Tariff. To the extent additional interconnections are constructed and placed in service, Carrier will make appropriate tariff filings with the FERC.

<sup>5</sup> The Midland Hub is currently limited to the interconnection with Enterprise Products Partners L.P.'s Midland terminal. Carrier is willing to consider additional interconnections within the Midland Hub with other carriers and service providers, where operationally practicable, at mutually agreed upon terms and conditions; provided, however, that Carrier reserves the right to file for and charge an incremental fee for such additional interconnections. *See* Part III of this Rates Tariff. To the extent additional interconnections are constructed and placed in service, Carrier will make appropriate tariff filings with the RRC.
